ABOUT ME

Software Engineer with over 4 years of industry experience across agile startups and large-scale enterprises. Proven track record in leading engineering teams, architecting full-stack platforms, and delivering AI-driven solutions. Experienced in roles ranging from Frontend Developer to CTO, with deep expertise in React, Next.js, Node.js, and TypeScript ecosystems.

EDUCATION

Kirirom Institute of Technology

2019 – 2023

Bachelor of Engineering in Software Engineering

WORK EXPERIENCE

WING Bank (Cambodia) Plc • Phnom Penh

Sep 2025 – Present

Senior Full-Stack Developer – Innovation

- Design and develop AI-enabled internal platforms supporting automation and decision-making workflows in a regulated financial context
- Lead hands-on R&D initiatives involving LLM integration, system experimentation, and feasibility assessment for production adoption
- Build and maintain full-stack systems (web, backend, APIs) with a focus on scalability, security, and maintainability
- Collaborate with compliance, risk, and business stakeholders to translate institutional requirements into deployable technical solutions

Dreamslab Co., Ltd. • Phnom Penh

Apr 2024 – Aug 2025

Chief Technology Officer

- Architected and delivered AI-powered platforms using Next.js, NestJS, and LLM orchestration (LangChain/OpenAI), including multi-tenant architecture, secure authentication, and observability
- Led hands-on R&D for AI recruiting and automation platforms, building retrieval pipelines, vector indexing, evaluation workflows, and production-ready POCs
- Designed and shipped end-to-end full-stack platforms (crowdfunding, booking, CMS-driven sites), covering authentication, payments, notifications, admin tooling, and API integrations
- Established engineering standards and CI/CD pipelines, improving code quality, deployment reliability, and delivery predictability

Dreamslab Co., Ltd. • Phnom Penh

Feb 2023 – Apr 2024

Lead Software Engineer

- Led development teams in building scalable full-stack solutions using React, Next.js, and NestJS
- Architected database schemas and API designs optimized for performance and maintainability
- Mentored junior developers through code reviews, pair programming, and technical workshops
- Collaborated with product and design teams to deliver high-quality software products on time

GOGO & CO Booking Services Co., Ltd. • Phnom Penh

Feb 2022 – Oct 2022

Frontend Developer & Team Lead

- Led frontend development for booking and operational platforms
- Collaborated with backend teams on API contracts and system integration
- Maintained frontend performance, UX quality, and code standards
- Implemented responsive designs and optimized frontend performance

Web Developer Intern

- Developed admin dashboard features for a virtual conference platform using Vue/Nuxt and NestJS APIs
- Implemented user management, configuration tools, and analytics features
- Worked within agile workflows, stand-ups, and code reviews
- Gained hands-on experience in frontend development and collaborated with senior developers on production code
